

## Quick Start Guide

OVOSONO Circle350

Your OVOSONO Circle350 will be ready in just a few minutes.

1

### Mount

Attach the wall mount (Wallpinnie) with screw and anchor to the wall. Hang the clock by its frame.  
Recommended height: 170 cm.

2

### Plug in

Connect an angled USB-C cable to the back of the clock (plug pointing down). Plug the adapter (5V, min. 2A) into a wall outlet. The LEDs will flash briefly.

3

### Set time

Press button 4 (bottom right) briefly. Then: T1 = hour +1, T2 = minutes +5, T3 = minutes +1. Press T4 again to finish.

4

### Done!

Brightness adjusts automatically. The clock works fully offline – no WiFi needed. Enjoy your OVOSONO Circle350.

## Enjoy your OVOSONO Circle350!
